PROJECTS

1. ByteBlogger - Blogging App | [LIVE](#) | [CLIENT](#) | [SERVER](#)

- A MERN web app where users can read, like and add comments on blogs. Editors can write and edit blogs or drafts, and users can notify the Admin and view their notifications, Only the admin can delete and edit all blogs, can notify any user and add or remove the Editor status of any editor.
- React UI, React query, Express, APIs, Mongodb, editor.js, npm packages.
- This project's key learnings include **file architecture**, creating **APIs**, handling **errors**, connecting **databases**, **image upload**, handling **requests and responses**, displaying data on **React UI**, and **Authentication**.

2. BaatCheet - A Chat App | [LIVE](#) | [CODE](#)

- A MERN web app where users can search for other users, send instant messages, delete messages, block, unblock, engage in group chat, remove and add by Admin and create Group chat.
- React, Socket.io, Mongoose, Chakra UI, Cloudinary, APIs, npm packages.
- This project's key learnings include handling **APIs with Websockets**, using MongoDB **aggregation pipelines**, adding **dark and light modes**, and implementing **timing** for message and **image uploading**.

3. Dukaan - A Shopping App | [LIVE](#) | [CODE](#)

- A MERN web app where users can filter, search, and wishlist items, and cart with features for adding, removing and deleting products, users can become admin and sell products, update or delete and manage orders.
- React UI, Styled components, Stripe, Redux, Firebase, APIs, React query.
- This project's key learnings include using **React Query** for fetching data, stripe for **payments**, **CRUD operations** and implementing a **cart analogy**.

4. Literary Treasure - A Book shop | [LIVE](#) | [CODE](#)

- A website on **Server-Side Rendering** where users can buy, As an admin, they can sell or add, edit or delete their listed books, book ordering, pagination and forget password features are also added.
- Express, Mongoose, Stripe, Ejs, Csurf, Multer, npm packages.
- The project's key learnings include rendering **HTML** on a Server using **EJS**, and **Csurf** for protection, **file uploading** and **Authentication**.
-

5. RTSHolidays.com - A Hotel Booking App | [LIVE](#) | [CODE](#)

- A MERN **TypeScript** web app where users can search, filter and book hotels, add, edit and delete their places for booking.
- **React + TypeScript**, **Express + TypeScript**, Tailwind, Mongoose, Swiper.
- The key learnings include using **TypeScript for Frontend & Backend**, **Authentication with Refresh and Access tokens** and **Mongoose queries**.

TECHNICAL SKILLS

Frontend: - HTML, CSS, JavaScript, SASS, TypeScript.

Library: - React.js, React router dom, Redux toolkit.

Framework: - Bootstrap, Tailwind.

Version-Control: - Git/GitHub

Backend: - Node.js, Express.js, NPM packages, Authentication, APIs, MVC

Databases: - MongoDB

EDUCATION

Jaipur Engineering College & Research Center, Jaipur — *B.Tech*

August 2014 - June 2018

B.Tech - ELECTRICAL ENGINEERING-
63.61%

Bal Vikas Vidya Niketan Senior Secondary School, Tonk - *12th-82.40%*

July 2012 - April 2013

- **Science-Mathematics.**

CERTIFICATE

Completed JavaScript course on Udemy

Free Code Camp Responsive Web Design Certification

Free Code Camp JavaScript Algorithms and Data Structures Certification

React with Typescript Certification

Node, Express, Rest API Certification

SOFT SKILLS

Quick Learner

Good Communication

Detail Oriented

LANGUAGES

Hindi, English (intermediate)
