## PROJECTS

### 1. Nexter – Real Estate | [LINK](#) | [CODE](#)

- A real estate React website where users can filter houses according to their preferences, also check property details and can add to favourites. The contact and Properties page is also there.
- React, React router dom, React Player, SASS, Context API
- This project's key learnings include **SASS**, **Files Architecture**, **React Hooks**, **Swiper for Slider**, **Context API for State management**, **filtering code for filter house on select and search**, and adding Favourites.

### 2. Cinema – Movies and Tv shows | [LINK](#) | [CODE](#)

- Users can stay updated on trending, popular, and top-rated movies and TV shows and their details. They can also search for specific titles.
- React, React router dom, Axios, react infinite scroll, React Redux, SASS.
- This project's key learnings include **State management** using the **Redux toolkit**, **Axios** of fetching data from **TMDB API**, **React Hooks** and Adding **infinite scrolling** for a better user experience.

### 3. Adina – Hotel and Restaurant | [LINK](#) | [CODE](#)

- Users can book and filter hotel rooms and restaurant tables according to their preferences, and they can check room details. There is a contact and registration form for booking.
- React, React router dom, Swiper, Context API, Tailwind CSS.
- This project's key learnings include using **Tailwind CSS** with React, **State management** with **Context API** and **Swiper for Slider**.

### 4. FurniShop – A Furniture shop | [LINK](#) | [CODE](#)

- Users can add, remove, increase, and decrease the number of furniture items in the cart for shopping. They can also contact you via email.
- React, React redux, Redux toolkit, Custom Hooks, Tailwind CSS.
- This project's key learnings include **Cart functionality** for adding, removing, updating and Clearing items. **Redux Toolkit** for State management, **stop scrolling** feature, **Progress bar** and **Tailwind CSS**.

### 5. Cryptoverse – Cryptocurrencies and News | [LINK](#) | [CODE](#)

- Users can stay updated about crypto coins and crypto-related news. They can search for a specific coin and news. They can get details about a coin by clicking on the coin card.
- React, React router dom, Axios, React Redux, Ant Design, React Chartjs.
- This project's key learnings using **Axios** for fetching Crypto data from **Rapid API**, **Ant design** for styling, **Chart.js** for creating Chart and **Redux Toolkit** for State management.

## TECHNICAL SKILLS

**Frontend:** – HTML, CSS, JavaScript (Array, Function, OOPs).

**Library:** – React.js, React router dom, Redux toolkit and RTK Query.

**Framework:** – Bootstrap, Tailwind.

**CSS Preprocessor:** – SASS

**Version-Control:** – Git/GitHub

## EDUCATION

Jaipur Engineering College & Research Center, Jaipur — *B.Tech*

August 2014 - June 2018

**B.Tech – ELECTRICAL ENGINEERING–**  
63.61%

Bal Vikas Vidya Niketan Senior Secondary School, Tonk – *12th–82.40%*

July 2012 - April 2013

– Science–Mathematics.

## CERTIFICATE

Completed JavaScript course on Udemy

Free Code Camp Responsive web design Certificate

Free Code Camp JavaScript Algorithms and Data Structures Certificate

## SOFT SKILLS

Quick Learner

Good Communication

Leadership/Team Player

Detail Oriented

## LANGUAGES

English, Hindi
