PROJECTS

1. ByteBlog – Blogging App | [LIVE]() | [CLIENT]() | [SERVER]()

- A **MERN** web app allows users to read, like, and comment on blogs, while editors can write, edit, and notify the admin. Admin controls blog management and editor statuses. Admin can notify any users.
- **React, React query, Express, APIs, Mongodb, editor.js, npm packages.**
- This project's **key learnings** include **file architecture**, creating **APIs**, handling **errors**, connecting **databases**, image **upload**, handling **requests and responses**, displaying data on **React UI**, and **Authentication**.

2. BaatCheet – A Chat App | [LIVE]() | [CODE]()

- A **MERN** app allows users to search other users, instant messaging, message deletion, blocking, group chat, group admin-controlled user management and group creation.
- **React, Socket.io, Mongoose, Chakra UI, Cloudinary, API, npm package.**
- This project's **key learnings** include handling **APIs with Websockets**, using MongoDB **aggregation pipelines**, adding **dark and light** modes, and implementing **timing** for message and **image uploading.**

3. Dukaan – A Shopping App | [LIVE]() | [CODE]()

- A **MERN** web app allows users to filter, search, wishlist, and manage items in their cart. Users can also add, remove, and delete products and check all their orders. Users can also elevate to admin roles to sell products, update, delete, and manage orders.
- **React, Styled components, Stripe, Redux, Firebase, APIs, React query.**
- This project's **key learnings** include using **React Query** to fetch data, Stripe for **payments**, **CRUD** operations, and implementing **cart analogy**.

4. Literary Treasure – A Book shop | [LIVE]() | [CODE]()

- A **Server-Side Rendering website** enables users to buy books with admin functionalities for selling, adding, editing, and deleting listings. Includes features like book ordering, pagination, and password recovery.
- **Express, Mongoose, Stripe, Ejs, Csurf, Multer, and npm packages.**
- The project's **key learnings** include rendering **HTML** on a Server using **EJS**, and **Csrf** for protection, **file uploading** and **Authentication**.
-

5. RTSHolidays.com – A Hotel Booking App | [LIVE]() | [CODE]()

- A **MERN TypeScript** web app allows users to search, filter, and book hotels with options to add, edit, and delete their places for booking.
- **React.js + TypeScript, Express + TypeScript, Tailwind CSS, Mongoose.**
- The **key learnings** include using **TypeScript for Front and backend**, **Authentication with Refresh and Access tokens,** and **Mongoose queries**.

TECHNICAL SKILLS

Frontend:- HTML, CSS, JavaScript, SASS, TypeScript.

Library:- React.js, React router dom, Redux toolkit.

Framework: -Bootstrap, Tailwind CSS.

Version-Control:- Git&GitHub

Backend:- Node.js, Express.js, NPM packages, Authentication, APIs, MVC

Databases:-MongoDB

EDUCATION

Jaipur Engineering College & Research Center, Jaipur – *B.Tech*
Aug 2014 - June 2018

B.Tech – ELECTRICAL ENGINEERING- 63.61%

Bal Vikas Vidya Niketan Senior Secondary School, Tonk - $12th$-82.40%

July 2012 - April 2013

- **Science-Mathematics**.

CERTIFICATE

Completed JavaScript course on Udemy

Free Code Camp Responsive Web Design Certification

Free Code Camp JavaScript Algorithms and Data Structures Certification

React with Typescript Certification

Node, Express, Rest API Certification

SOFT SKILLS

Quick Learner

Good Communication

Detail Oriented

LANGUAGES

Hindi, English (intermediate)
